Invest in the Professional Development of your Employees

Learning with AVU Online is active, featuring a wide range of online interactive teaching tools. You won't find long lectures in our program. Participants engage with a new activity every 3-5 minutes – all purposely designed to enhance learning.

Programs range from half-day seminars to full-term courses, and are available at your location, at our campus, or online. We also offer corporate discounts on open-enrollment courses, and can help support your organization's tuition reimbursement program.

Solutions for Every Organization

Entry-level to the C-suite.

Further educate and provide relevant skills to your employees, at every stage of their careers.

Expert instruction.

Our industry-leading instructors are equipped to give your staff the tools and insights they need to succeed.

On-site, on-campus, or online.

Our programs are delivered at a time and place that work for you.

Dedicated support

Receive personal, one-on-one service for the duration of your program.

Corporate Discounts

Learn about opportunities for establishing a discount on all SPCE Open Enrollment courses and certificate programs for your employees.

Tuition Reimbursement Programs

Many of our courses and certificate programs are eligible for corporate tuition reimbursement programs.

Some of Our Popular Program Areas

Customized Training

Our professionals from The School of Professional and Continuing Education will work with you and your team to understand your strategic objectives and help to create relevant, practical solutions for professional development and customized staff training.

Functional Manager Program

The Functional Manager program, through a series of experiential workshop sessions, allows participants to explore and practice key areas of management. These areas build on an educational experience designed to develop competencies beyond the typical supervisory skill set.

Leadership Development Series

The Leadership Development Series at American Vision University provides training and development for every level of your management team. The series of classes offered will develop and enhance your team's leadership skills and help to meet career and organizational objectives.

Organization-Wide Training

The courses cover four core areas that can be customized to meet your organizations unique challenges and can be delivered to employees on-site or online.

About American Vision University

AVU was established in Southern California, USA to provide a learning environment in which faculty, staff and students can discover, examine critically, preserve and transmit the knowledge, wisdom and values that will help improve the quality of life for all.

All our educational activities will be based on a commitment to promoting the highest levels of student engagement. We will challenge and empower our students to discover and reach their full potential, supporting and working with them to do so.
